

144mm x 101mm Postcard

Final artwork set up size 148mm x 105mm.

Please set up artwork at actual size at 300dpi and supply as a press quality PDF.
If you also require text on the back of the postcard then please supply as a single, two page PDF file, one page for the front and one for the back.

Bleed - Please set up card with 2mm bleed, anything outside the red dotted line will be trimmed off.

Finished Trimmed Size - Final size of your postcard, in this case - 144x101.

Safe Visual Area - Our cards are cut down from larger pieces of card. Even with the most accurate trimmers there is a danger that elements placed too near the edge may be lost.

Image size needs to be 148x105 - this ensures image bleeds off the card.
